The Breathing Air Transporter™

So Many Ways to Use!

The Breathing Air Transporter™ (BAT) is a highly mobile breathing air cart holds two large air cylinders and contains a 4-outlet breathing air manifold. The BAT can be towed or used as a mobile push cart in several configurations. Fork lift guides and a center lift eye are included for easy transportation to where you need it.

Specifications:

- Steel frame with black powder coat paint (other colors available for an additional charge)
- 4 outlet manifold with regulator, relief valve, whistle alarm, and pressure gauges
- Universal CGA-346/CGA-347 wrench tight connectors allow use of 2400 psi or 4500 psi cylinders. 6000 psi connectors available.
- **Pneumatic Tires:**
 - Rear twin 21" tires - highway rated
 - Swivel caster 10" tires rated for 350 lbs. (stowed when towing on highway)
- Lunette ring for Pintle Hitch connection
- **Lift Required from horizontal to vertical mode:** two persons using 45 lbs. lift
- **Trailer Dimensions:** Length 94", Height 25", Width 36"
- **Vertically Stored Dimensions:** Height 70"
- **Weight:**
 - Empty 262 lbs.
 - With two 444 cf air cylinders 570 lbs.

**Store Upright For
Smallest Footprint**
