

## Compressed Air Cylinder Test Kit

The AQTCOO2KIT Cylinder Test Kit was designed to rapidly test rented cylinder's blended breathing air quality. The Test Kit provides an immediate and accurate Oxygen (O<sub>2</sub>) and Carbon Monoxide (CO) reading for blended high-pressure cylinder air. The meter requires two 9 volt batteries for operation and is supplied with a 10 foot high pressure hose and a 5000 psi regulator with a universal CGA-347 hand tight cylinder connection.

Visual Air Flowmeter to Monitor

High Pressure Connect Hose

AQTCOO2KIT

**Always Test Cylinder Air Quality Prior to Use**

**The CO/O<sub>2</sub> Cylinder Test Kit contains all the components to test blended breathing air cylinders.**

### CO/O<sub>2</sub> Cylinder Test Kit

Item No.	Description
AQTCOO2KIT	Test Kit - CO/O <sub>2</sub> monitor, flow meter, high pressure 5K reducing regulator, 10 foot high pressure connect hose with CGA-347 universal hand tight cylinder connection

For calibration gas and kits, see page 22

## Laboratory Air Quality Testing Service

### Air Sampling Kits Available for Rental or Purchase

Certified laboratory air testing is available for high pressure or low pressure compressor air requirements. Take your own samples in 10 minutes and send out for precise laboratory results. A 2LA accredited lab will test to any recognized standards (CGA, NFPA, or Federal MIL Specs).

Results can be obtained in less than 3 days; same day service is available for an additional charge. Contact Customer Service for details.

### AirCheck™ Purchase or Rental

Item No.	Description
ACK-97	AirCheck™ Kit to collect air sample. Specify pressure adapter required for testing SCBA, SCUBA, or low pressure. <b>Purchase of AQT-1LS required.</b>
ACK-97R	RENTAL AirCheck™ Test Kit - 2 week rental period. <b>Purchase of AQT-1LS required.</b>
AQT-1LS	Laboratory analysis fee and sample media kit. <b>One kit required for each air test performed.</b>

### Air Systems' Air Quality Guarantee

**Air Systems will provide your first lab certified air quality test at no charge when you purchase any of our Grade-D filtration devices or compressor systems. AirCheck™ kit rental or purchase is required to redeem offer. Contact Customer Service for details.**
